BODY SHAPE MANIA CRACKLING MOUSSE

"Crackling" mousse to treat cellulite. A unique combination of active ingredients with cutting-edge cosmetic technology that immediately refreshes and invigorates the skin. The effervescent technology triggers an ultra-intensive and targeted action on orange peel skin and fat deposits, with a progressive remodeling of the treated areas, which appear firmer, toned and smoother. The product is applied in a few seconds and does not require massage. It takes effect in 6-8 hours after application, gradually releasing the active ingredients.

PERFUME: Fresh & Delicate.

ACTIVE INGREDIENTS

COFFEE, THEOBROMINE (EXTRACTED FROM COCOA SEEDS) AND CARNITINE

They play an important role as they stimulate the drainage of liquids and facilitate the metabolism of fats present in the adipose tissue.

IVY EXTRACT

it has a remarkable anesthetic and anti-inflammatory action reducing local pain.

CENTELLA ASIATICA AND BIRCH

plant extracts that improve microcirculation and decrease the edematous aspect. They perform a draining action, promoting the reabsorption of water and the elimination of waste.

SOYA AND POMEGRANATE EXTRACT

plant extracts active against free radicals which have an anti-oxidant and anti-inflammatory action. The pomegranate extract contains ellagic acid and is very rich in vitamins and nutrients for the skin.

HOP EXTRACT AND FUCUS VESICULOSUS

they stimulate the cellular metabolism of the tissues with firming and toning action, improving the appearance and elasticity of the skin.

APPLICATION

How to use: Shake very well before use, until the consistency of the product is transformed from liquid to solid, turn the product upside down and then apply a small amount of product directly on the body area. Press the product with your hand to activate the "Crackling" effect.
